

Heaven's Light is Our Guide
Rajshahi University of Engineering & Technology
Department of Computer Science & Engineering

Lab Manual

Course Code: **CSE 1204 (Sec All)**
Course Title: Sessional based on CSE 1203
Instructor: Md. Shahid Uz Zaman
Dept of CSE, RUET

Module 07 [Java Basics] (for 24-28/1/2026)

Topic 1 [java Programming private method]

Problem Statement: Verify that private methods can be used only inside the class but it cannot be used from outside the class.

Topic 2 [java Programming static method/member]

Problem Statement: Verify that static methods can access static method/member but cannot access to non-static method/member.

Topic 3 [java Programming: Anonymous object]

Problem Statement: Write a Java program that creates a Point object using anonymous object using the following getPoint() method.

Point pt=getPoint();

Topic 4 [java Programming: ArrayList<> object]

Problem Statement: Write a Java program performs the following operations using ArrayList Object

- i) Declare a ArrayList object ax to store flowers
- ii) Add three flowers: Rose, Lilie, Carnation, Daisie, and Tulip
- iii) Insert a new flower Peonie in the second position of ax
- iv) Delete the flower Lilie
- v) Find any flower in ax
- vi) Sort the list
- vii) Delete the list

Topic 5 [inheritance: use of super keyword]

Problem Statement: For the following Java program write

- i) to display x of class A in class B
- ii) statement to call getX() of class A in class B
- iii) to call parameterized constructor of in class B

<pre>class A{ int x; public A(){ x=0; } public A(int x){ this.x=x; } }</pre>	
--	--

<pre>public int getX(){ return(x+10); } class B extends A{ int x=20; public int getX(){ return(x+10); } } public class First{ public static void main(String[] args) { } }</pre>	
---	--

Topic 6 [interface in Java]

Problem Statement: Write three interfaces in Java namely AI, BI and CI with the following activities:

- i) Declare method PrintA() in AI
- ii) Declare method PrintB() in BI
- iii) Declare method PrintC() in CI
- iv) write body of PrintA() in class A
- v) write body of PrintB() in class B which is inherited from class A
- vi) write body of PrintC() in class C which is inherited from class B
- vii) Create object of class C in main() of First class and invoke PrintA(), PrintB() and PrintC()
